### *The Heart of the Matter*

**This is our community. We respect and love our patients and our co-workers. We care for our neighbors with tenderness and joy. Our staff goes above and beyond with quality and compassion. We are supportive and present in the midst of suffering. We visit our patients WEATHER or not. Our staff brings expertise and years of experience to their patients. We could not do what we do without the generous support we receive from our mountain community.**
